	65	60	51	44	17	29	17	24	17	33	10	20	177	210

The Bracken Basic Concept Scale Revised is a nonverbal standardized test in which a child is required to point to a single picture to demonstrate comprehension of targeted concepts.

The School Readiness Composite (SRC) evaluates knowledge of colors, letters, numbers/counting, sizes, shapes, and comparisons.

The higher-level subtests evaluate direction/position, self-social awareness, texture/material, quantity, and time/sequence.
